

A physicist once said: the **most** anyone can do is to give us a formula we can check by experimenting.

The **most** - anyone - can do for **you and me** is to give us a **word** to perform. That is what God has done. We must study and perform **the Word**.

Get Basic with me.

First we learn our A B C's.

Then we learn how to make words, Apples, Bananas, Carrots.

Words make pictures and pictures show success in the Picture.

But we *must* see the picture or we are blind in that area.

God opens the eyes of our understanding and inspires us to pursue.

Once I was blind but I see.

The mind sees the word. The mind makes a picture.

The mind forms that word. The mind speaks that definition.

The mind hears itself speak. The mind sees the spoken results.

The mind makes preparation. The mind performs the word.

*Our problem is we stay one step ahead of our mind with fear.*

Back up one step and live in the moment of peace.

We must get serious and find the picture God is speaking to us as an individual.

We do this by looking inward. Inside us is a river of living water.

It comes out of us in the shape of the man God is calling us to be.

It is the inspiration that makes us the picture.

We then become a tree planted by this river of living water.

You are looking for a new picture.

You will make a formula on how to perform that which is good for all to see.

Genesis chapter one has that formula.

My book "A Light Shining out of Darkness" has that formula in clear form.

All experiments are done in a controlled, confined setting. It is the only way to prove the results.

You must get alone with God in a secret place. You must keep your mind on Him. You must study the picture. It is immutable. Do not just look at the picture but feel after Him and follow the leading of His Spirit.

In this controlled setting you are a soldier wrestling against the darkness and fighting the good fight of faith. You have an immutable mind picture controlling you. Endure hardness as a good soldier. Press through the darkness with the victory in mind. Reap and faint not.

**In our clouded and stormy life it is the want of every person to have his path made clear. We have a keen wish to be correct and react spontaneously with boldness. Preparation makes you spontaneous. You need to read My book "A Light Shining Out of Darkness." Genesis chapter one will outline this for you.**

My message to you is: All knowledge starts in the darkness. We live on the cutting edge where darkness begins. Take dominion. Patiently press into the darkness and possess your answer.
